

# Basic Peaked Roof House Template

To add height to your display, add some of these. Generally used for train station, towers, clocktowers & windmills.

## Materials:

Two batches GBL icing  
Two batches GBL Dough  
Three 24" Cookie Sheets  
Rolling Pin  
Paring Knife

## Process:

Roll Out Dough on three(3) greased cookie sheets  
Cut out template pieces, use Paring Knife, using one sheet for roof pieces and the other two sides.
